

What is included in the shoreline jurisdiction?
 Shorelines of the State include all marine shorelines, lakes greater than 20 acres, and rivers and streams with 20 cubic feet per second (cfs) mean annual flow or greater. The shoreline jurisdiction includes these water bodies and shorelands. Shorelands are defined as those areas extending landward for two hundred feet from the ordinary high water mark, floodways and contiguous floodplain areas landward two hundred feet from such floodways, and all associated wetlands and river deltas. King County currently includes the zero-rise floodway, essentially the 100-year floodplain, in its shoreline jurisdiction.

What is the difference between current and proposed shoreline jurisdiction?
 The updated map of the shoreline jurisdiction was developed based on State direction to:

- Include all qualifying shorelines on federal lands (these were not previously included)
- Use a 1998 USGS study to identify the location of 20 cubic feet per second flow points on streams (these are higher up in the watershed than most current points)

Further, lakes were reevaluated in relation to the 20-acre threshold given the availability of new data about lake size.

	M I L E S		
	Lake	River/Stream	Marine
Current Jurisdiction	162	1,196	51
Potential Extension of Jurisdiction	72	500	0
Total	234	1,696	51

Shorelines of Statewide Significance

King County, Washington

- Shorelines of Statewide Significance
- Current Shoreline Jurisdiction: Incorporated Area
- Proposed New Shoreline Jurisdiction: King County
- Open Water
- 200 ft Jurisdiction
- Current Shoreline Jurisdiction: King County
- Open Water
- 200 ft Jurisdiction
- King County Boundary
- Potential Annexation Areas
- Tribal Lands
- Other Major Streams
- Other Water Bodies
- Urban Growth Boundary
- Forest Production District
